

Mobile Workshop

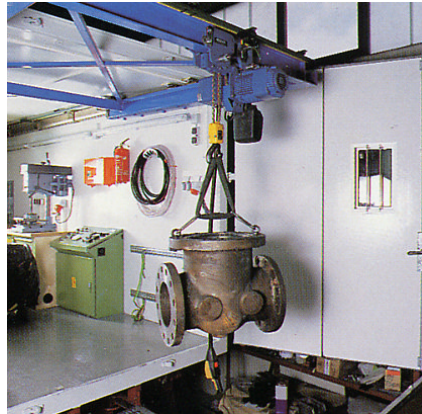

Fast reaction times and flexibility are required for on-site valve service. EFCO has a flexible range which helps you to quickly meet the requests and requirements of your customers.

We can develop your own mobile workshop based on your requirements and requests. We offer: container (ISO standard), semitrailer, complete truck with windows.

Pillar drill,
high-pressure cleaner

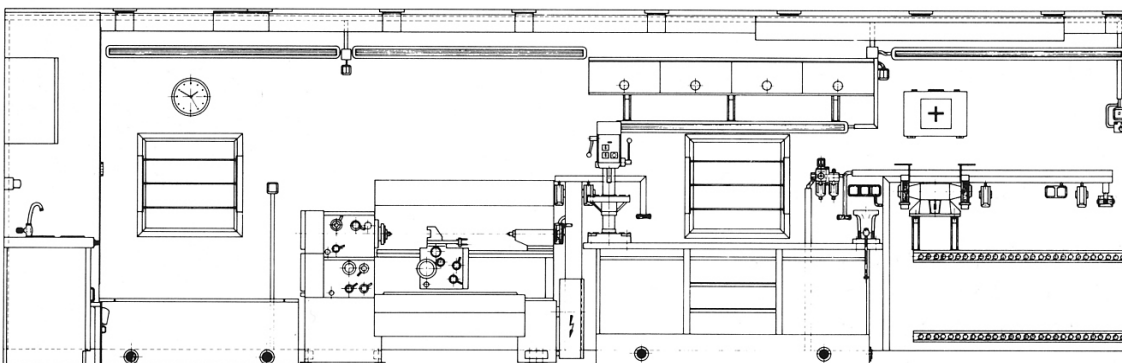

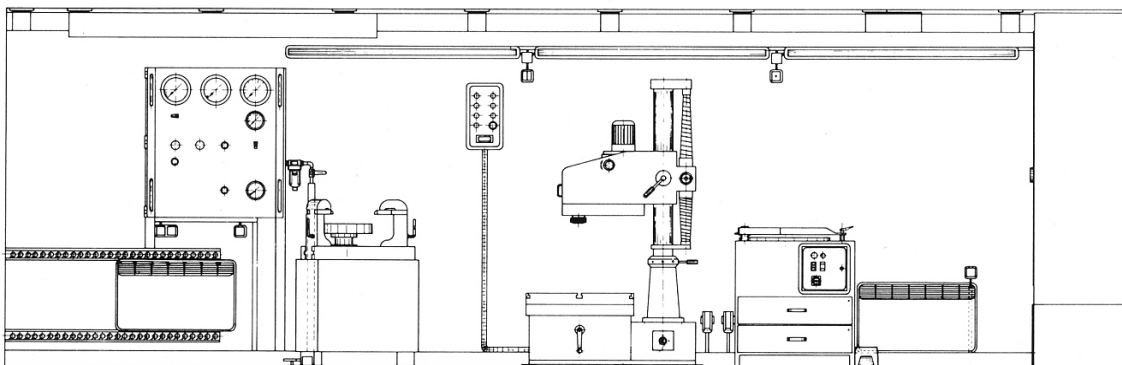

Overhead crane, extending to outside

Generator and compressor in
heated compartment

Vehicles and bodies are equipped with state-of-the-art technology:

- Fully air conditioned, oil heater for operation whilst stationary or driving.
- Power supply via emergency generator, truck electric system or 230 V supply (automatic switch-over).
- Fully automatic battery charging.
- Fully equipped kitchenette.
- Overhead crane, can be extended to outside of vehicle by 1 m via telescope rails.
- Compartment with quiet compressor and generator.

Example of an EFCO-supplied truck with superstructure for Russia

Subject to technical change.
